

About Us

We are a group of highly trained and certified back country guides that specialize in the unique nature of Glacier National Park and the surrounding area, including geology, winter and summer ecology, and natural history. We focus on bringing this knowledge and experience to small groups of adventurers in a way that is geared towards that groups interests and skill level - limited only by your imagination!

Although Glacier National Park's trails are accessible to all during the winter and summer, utilizing a knowledgeable guide ensures that you get to experience the best of what the park has to offer, specifically tailored to your capabilities. Our guides can lead you off the beaten path, and onto routes that will bring you to the most scenic spots available.

All of our guides have extensive training in first aid, avalanche safety, equipment repair, and winter preparedness, to ensure that all of our outings are safe and comfortable.

The Adventure of a Lifetime

About our Adventures

Our adventures focus on the beauty and excitement that Glacier National Park has to offer. In the winter, the crowds are gone, and the air is pristine and still - but the Park itself is alive and beckoning in so many ways. This allows us to view the Park as it was meant to be, through our day tours, multi-day tours, full moon tours, high adventure outings and snowshoeing excursions.

The Park is just as astounding during the summer months! There's a reason they call this Big Sky Country, and the Park affords more than a few astounding vistas for intrepid visitors. Get the most out of your experience by enjoying one of our guided hiking tours that are catered to your interests and skill level, or take in the sights from up-on-high through our rock climbing events.

To top everything off, all of our adventures include healthy, energy packed snacks or meals, and all necessary equipment. We also welcome you to bring your own gear!

Winter Experiences

Day / Multi Day Tours

Spend a day, a few days, a week, or longer on a fully guided tour through the high country. We can build igloos and snow caves for warmth, or if you prefer we can pitch tents!

Back Country Skiing

With options for all levels, our back country skiing provides countless powder runs and views galore. Vertical gain and distance are customized to you! Have a split board? Let's ride!

High Adventure Tours

These experiences are for people with above average back country skills who want to push their limits. This once in a lifetime experience is customized for each group.

Snowshoeing

We offer exciting beginner, intermediate or advanced snowshoeing trips! Whether you are looking for a leisurely experience, or 6-8 mile trek, we can adapt the adventure to your own level of interest.

Summer Experiences

Rock Climbing

Join us for our daily rock climbing adventures on the shores of the beautiful Lake Kootenai at Stone Hill, in Northwest Montana. Skill levels for these adventures range from first timers to upper-intermediate climbers.

Hiking

Enjoy our hiking treks to Web and McGuire Look Out Towers in the peaks of the rugged Whitefish Range, as either day trips or overnight adventure! As always, customized hikes can be created to match the skill levels and desires of the hikers.
